

**PRESS RELEASE: May 2007: London, United Kingdom**

## **SUPPORT LOVED ONES BACK HOME WITH FOHMO.COM**

Bushfallers are renowned for their loyalty and support of friends and family back home. They send home a whopping 13 Million dollars to help loved ones every year. Now, a new service from FOHMO.com makes it easier than ever for Bushfallers to show their generosity and send a meaningful gift to loved ones. FOHMO lets anyone in the U.S., Canada, Europe and Asia to quickly send mobile prepaid credit -- the fuel that runs mobile communications -- to friends and family in Cameroon.

FOHMO, pronounced 'Forh mó,' launched its SMS-based, Airtime credit service this summer (2007) to rave reviews. The service lets Bushfallers send prepaid credit to the mobile phones of any major carrier in Cameroon without phone cards, waiting on long lines or any hassle. It saves them money when they want to send a little gift of prepaid credit for their mobile phones -- known as 'Airtime'-- to Cameroon.

Mobile phone prepaid credit is in huge demand in Cameroon, making it both a valuable and thoughtful gift. Just a small amount of prepaid credit helps families stay connected and shows a lot of love. With every credit sent, families in Cameroon get the support to access the key communication tool they depend on -- their mobile phone.

With over half a million Bushfallers around the world, there is great demand to stay connected with far-away friends and family. FOHMO gives them unprecedented tools to send prepaid credit quickly and affordably.

FOHMO is a UK-based business powered by 3KLAPS Business Solutions, a Business Solutions Consultancy. CMO, Norman King, recently had this to say about the big launch, "FOHMO is unique because you can send small amounts of credit directly to a friend or loved one's phone. We hate to see your money eaten by fees when you send help back home. So we came up with an alternative method that's low-cost and moves at the speed of text messaging."

Norman has cause for excitement, "We put access to Airtime where people need it. We are offering Bushfallers a powerful new way to support loved ones back home." Discover how FOHMO puts credit on friends and family's phones in Cameroon and saves money.

FOHMO offers a free trial to anyone with a mobile phone, giving them up to 1000FRS CFA just for trying the service. With no obligation or risk, it's easy for anyone to give it a try. FOHMO wants to help folks find the best way possible to stay connected with far-away friends and family.
